# How Does God Grow a Christian Radio Network?

## How it began....

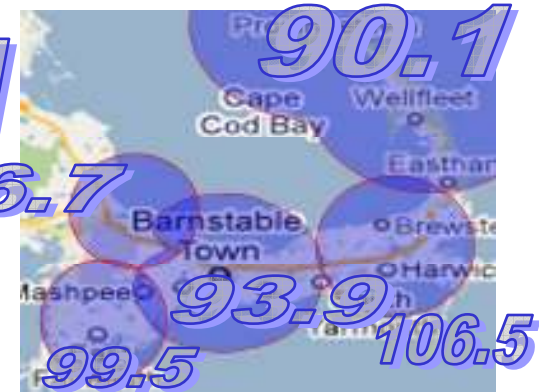

It took one couple willing to leave everything, one beat up radio station, and One God big enough to orchestrate it all.

960 AM  
WFGL

In the early nineties, George Small was an engineer working for Caterpillar, his wife, Paula, was a school teacher. But by 1994 they were preparing to respond to God's prompting - they were leaving San Diego, CA, stable jobs, and loving family for Massachusetts. God had placed two passions in George's heart: to plant a church in the greater Boston area and to assist with Christian radio in New England. Just weeks before the moving truck was scheduled to pull out, a defunct AM radio station was donated to Calvary Chapel, Costa Mesa, CA. God had made George and Paula's destination clear: Fitchburg, MA where the first Calvary Radio Network (formerly CSN) station, WFGL 960 AM, was about to come to life.

## How Christian Radio continues...

It took one church that had experienced the power of Christian radio, one opportunity, and One God who provides all the needs.

In 2005, after years of faithfully supporting Christian radio and now with a healthy church, Horizon Christian Fellowship in Fitchburg, God began a new stirring: FM Christian Radio in New England; and a radio station on Cape Cod was available. But it was an opportunity bigger than this New England church could undertake. Or was it? This group of believers knew the impact that solid Bible teaching and contemporary Christian music available 24/7 could have on a community. God provided the first \$50,000 with perfect and miraculous timing. He arranged schedules, necessary paperwork, and even transported equipment that should have taken days to arrive in just hours! Maybe it was too much for this New England church, but it wasn't too much for God—by early 2007 most of the Cape had FM Christian radio for the first time in its long and illustrious history.

91.7 Gardner

91.7 Lunenburg

103.7 Salem

90.1 Fitchburg

91.1 Bradford

## How it Keeps Growing...

It just takes One God whose ideas are bigger than any ONE!

By late 2007 it was clear the God had big plans for Christian radio in New England, with several more stations built, a list of licenses and a boat load of opportunity. The door was undoubtedly opening. The window of opportunity to pour the solid, unchanging Gospel message over the airwaves and onto the dry soil of Massachusetts had arrived!

And today God is still in the miracle business—we are living it at RenewFM!
